

THOMAS CHENG

thomas_cheng_3@sfu.ca | [linkedin](#) | <https://github.com/0Thomas1>

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML/CSS, C, C++, Rust, Haskell, Java, Python, Bash, SQL

Frameworks/Libraries: Node.js, Express, React, JUnit, Jest, Bootstrap, Zod

Developer Tools: Git, Docker, AWS EC2

TECHNICAL PROJECTS

MCP-Enabled Task System (MTS) | *MCP, Node.js, Copilot, MongoDB, TypeScript, Python*

- Engineered a cross-stack architecture with a TypeScript MCP service for AI Interaction and a Python display interface for live task rendering.
- Developed an MCP server using Node.js and MongoDB to allow the use of natural language to perform CRUD operations through VSCode Copilot.
- Designed a Python interface rendering tasks onto an LED dashboard via the local network.

Vancouver Trails API | *Restful API, Supabase, Node.js, Express, Docker, AWS EC2*

- Designed and implemented a RESTful API using Node.js, Express, and Supabase to get various data from Vancouver hiking trails.
- Built a robust backend with dynamic query filtering, supporting search (by difficulty, distance, time, region, and more) and flexible column selection.
- Containerized the application with Docker for easy deployment and scalability.

PCBee | *Node.js, Express, Bootstrap, Jest, OAuth*

- Developed a full-stack PC part picker and recommendation website following Agile Framework, using Node.js, Express and Bootstrap, allowing users to select parts from eBay and gain recommendations using OpenAI API.
- Implemented an interactive AI Chatbot using OpenAI's GPT chatbot, which helps users to analyze and pick computer parts.
- Designed and maintained a CI/CD pipeline (GitHub Actions + Jest) to automate testing and deployment, ensuring reliable and high-quality updates to the application.

WORK EXPERIENCE

Computer Science Tutor

Sept 2023 – Present

Self-Employed

Vancouver, BC

- Maintained Students' grades above 80%, with a mastery of data structures, algorithms, and software engineering.
- Designed comprehensive study plans based on documenting students' growth.
- Coached students in unit testing and debugging practices, which allow students to develop sustainable coding habits.

Sales Representative

Sept 2022 – Jan 2026

Under Armour CA

Richmond, BC

- Led foundational training for new hires, showcasing ability to convey complex concepts clearly and understandably.
- Thrived in fast-paced environment during holiday seasons, translating the ability to handle sustained large customer volume into an efficient work ethic.

EDUCATION

Simon Fraser University

Burnaby, BC

Bachelor of Science in Computer Science

Sept 2024 – Apr 2027

Relevant Coursework: Data Structures and algorithms, Intro to Artificial Intelligence, Computer Systems

Langara College

Vancouver, BC

Associate of Science in Computer Science

Jan 2022 – May 2024

Relevant Coursework: Software Practice, Full Stack Web Dev, Data Structures, Unix tools, Object Oriented Programming
